INTRODUCTION

The UMWA Health and Retirement Funds ("the Funds") is pleased to provide the 2023 **Funds Supplemental Formulary Prescribing Guide** as a useful reference and informational tool. The **Funds Supplemental Formulary Prescribing Guide** can assist practitioners in selecting clinically appropriate and cost-effective products for their patients. The Funds Supplemental Formulary applies to beneficiaries covered under the American Consolidated Natural Resources, Crimson Oak Grove Resources and the UMWA International plans.

The drugs represented have been reviewed by a National Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion by the Funds. The **Funds Supplemental Formulary Prescribing Guide** is reflective of current medical practice as of the date of review.

The information contained in this **Funds Supplemental Formulary Prescribing Guide** and its appendices is provided solely for the convenience of medical providers. We do not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. This **Funds Supplemental Formulary Prescribing Guide** is not intended to be a substitute for the knowledge, expertise, skill and judgment of the medical provider in his or her choice of prescription drugs. All the information in the **Funds Supplemental Formulary Prescribing Guide** is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

National guidelines can be found on the National Guideline Clearinghouse site at <https://www.ahrq.gov/gam/>, on the websites listed under each therapeutic class and on the sites listed in the WEBSITES section of this publication.

PREFACE

The **Funds Supplemental Formulary Prescribing Guide** is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action. Products are listed by generic name with brand name for reference only. Unless exceptions are noted, generally all applicable dosage forms and strengths of the drug cited are included in the **Funds Supplemental Formulary Prescribing Guide**. Generics should be considered the first line of prescribing.

The Funds has an open, preferred product formulary; therefore, most drugs are covered whether listed in the **Funds Supplemental Formulary Prescribing Guide** or not. However, specific limitations do apply and will be described on subsequent pages in the preface. In addition, over-the-counter (OTC) products, with the exception of insulin and diabetes monitoring products, are not included in the pharmacy benefit, except those provided to specific benefit plans that require compliance with the Affordable Care Act (ACA) provisions. Pharmacy law requires a valid prescription for the purchase of needles and syringes in certain states. OTC products are listed for informational purposes. If covered in the pharmacy benefit, OTC products require a valid prescription.

Drugs represented in the **Funds Supplemental Formulary Prescribing Guide** may have varying cost to the plan member. Prescription benefit plan may alter coverage of certain products or vary copay amounts based on the condition being treated. Generic medications typically are available at the lowest cost, brand-name medications in the **Funds Supplemental Formulary Prescribing Guide** will generally cost more than generics, and brand-name medications not on the list may cost the most.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The Funds' P&T Committee was established to review and approve safe and clinically effective drug therapies. The Funds P&T Committee's voting members include physicians, pharmacists, and nurses. The Committee meets quarterly to review drug usage patterns, evaluate medications and establish guidelines for optimal use.

The services of an independent National Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve safe and clinically effective drug therapies. The P&T Committee is an external advisory body of clinical professionals from across the United States. The P&T Committee's voting members include physicians, pharmacists, a pharmacoeconomist and a medical ethicist, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Employees with significant clinical expertise are invited to meet with the P&T Committee, but no CVS Caremark® employee may vote on issues before the P&T Committee. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

PRODUCT SELECTION CRITERIA

Physicians are encouraged to prescribe drugs in the **Funds Supplemental Formulary Prescribing Guide**.

All the information in the **Funds Supplemental Formulary Prescribing Guide** is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber.

DRUG LIST PRODUCT DESCRIPTIONS

To assist in understanding which specific strengths and dosage forms are in the **Funds Supplemental Formulary Prescribing Guide**, examples are noted below. The general principles shown in the examples can usually be extended to other entries in the book. Any exceptions are noted.

Products in the *Funds Supplemental Formulary Prescribing Guide* include all strengths and dosage forms of the cited brand-name product.

cefixime

Suprax

Oral capsules, oral chewable tablets, oral suspension and all strengths of Suprax would be included in

this listing.

When a strength or dosage form is specified, only the specified strength and dosage form is in the *Funds Supplemental Formulary Prescribing Guide*. Other strengths/dosage forms of the reference product are not.

tizanidine tabs

Zanaflex

The tablets of Zanaflex are on the ***Funds Supplemental Formulary Prescribing Guide***. From this entry, the capsules cannot be assumed to be in the list unless there is a specific entry.

Extended-release and delayed-release products require their own entry.

sitagliptin/metformin

Janumet

The immediate-release product listing of Janumet alone would not include the extended-release product Janumet XR.

sitagliptin/metformin ext-rel

Janumet XR

A separate entry for Janumet XR confirms that the extended-release product is in the ***Funds Supplemental Formulary Prescribing Guide***.

Dosage forms in the *Funds Supplemental Formulary Prescribing Guide* will be consistent with the category and use where listed.

nystatin

The above *nystatin* entry listed in the TOPICAL/DERMATOLOGY section is limited to the topical dosage forms. From this entry the oral formulations cannot be assumed to be on the list unless there is an entry for this product in the ANTI-INFECTIVES section of the ***Funds Supplemental Formulary Prescribing Guide***.

GENERIC SUBSTITUTION

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product. **Boldface** type indicates generic availability. However, not all strengths or dosage forms of the generic name in boldface type may be generically available. In addition, boldface type may indicate that the brand name cited is a generic. An example of the latter includes Levoxyd.

One way to reduce out-of-pocket cost is by requesting a generic drug. Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration (FDA) for safety and effectiveness, and are manufactured under the same strict standards that apply to brand-name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug. Generics may be different from the brand in size, color, and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug.

FUNDS SUPPLEMENTAL FORMULARY PREFERRED PRODUCT PROGRAM

Effective 01/01/2023

The Funds has a Preferred Product Program in eight drug classes. These classes are Diabetes-DPP-4 Inhibitors/Combinations, Diabetes-SGLT-2 Inhibitors/Combinations, Diabetes-GLP-1 Receptor Agonists, Hypnotics (Sleep Aids), Irritable Bowel Syndrome with Constipation/Chronic Idiopathic Constipation, Urinary Antispasmodics (Overactive Bladder), Respiratory-Long-Acting Anticholinergic Inhalers, and Respiratory-Steroid/Beta Agonist Combination Inhalers. The preferred drugs in these classes are available to the beneficiary at the standard copay. If a non-preferred drug within these classes is selected, the beneficiary will be required to pay the standard copay plus an additional charge. See the appropriate sections for the preferred and non-preferred lists. Additional classes may be added in the future. If you have questions, please call CVS Caremark® Customer Care at 1-800-294-4741. The current Funds Supplemental Formulary Preferred Product Program Drug List is as follows:

ADVANCED CONTROL SPECIALTY FORMULARY

The Funds has a preferred product program called the Advanced Control Specialty Formulary (ACSF). The preferred drugs in ACSF classes are available to the beneficiary at the standard copay. If a non-preferred drug within these classes is selected, the prescriber will be asked to consider preferred drug(s) to be used before the non-preferred drug will be covered. The ACSF Drug List is updated quarterly. If you have questions, please call CVS Caremark Customer Care at 1-800-294-4741. The ACSF Drug List and more information about The Funds' Drug Benefit are available at <https://www.umwafunds.org>

SPECIFIC LIMITATIONS AND EXCLUSIONS

Prior Authorization:

The following drugs require Prior Authorization. Prescribers may call the CVS Caremark Prior Authorization Department at 1-800-294-5979 to request Prior Authorization review:

- Acne
 - Adapalene Products (Differin – PA required only in adults age 36 and older, Epiduo, Epiduo Forte)

- Contraceptives (oral, injectable and other drug delivery systems), except as prior approved for non-contraceptive indications or as a provision of the ACA
- OTC smoking cessation products, except as required as a provision of the ACA
- Miscellaneous formulations, including select topical analgesics (e.g., patches, lotions and creams), which contain products used for the temporary relief of minor aches and muscle pains. These products may be marketed contrary to the Federal Food, Drug and Cosmetic Act (the FD&C Act). They may contain an ingredient or ingredients for which the efficacy and safety are unknown or have not been adequately studied based on their route of administration. U.S. Food and Drug Administration (FDA)-approved drugs (either legend or over-the-counter [OTC]) are available to treat the conditions targeted by these agents, and many of the ingredients within multi-ingredient products may also be commercially available individually.
- Select bulk powders and proprietary bases for compounding
- Dietary Management Products (Medical Foods)

- Vision Enhancement Agents

Specific Covered Items:

- The first fill of prescriptions for diabetic supplies, including insulin syringes with needles, alcohol swabs, blood glucose testing strips (with the exception of continuous glucose monitoring supplies), urine glucose testing strips, ketone testing strips, ketone tablets, lancets, and lancet devices, are covered under the Funds' prescription drug benefit at \$0 co-pay. The Funds prefers that refills for these supplies should be obtained through the Funds' DME vendor. To locate a participating DME vendor with the Funds, contact the Funds' Call Center at **1-800-291-1425**. Insulin is not included in this category and is available under the drug benefit only.
- Infertility medications
- Injectables, unless previously listed as not covered
- Durable Medical Equipment (DME) used for respiratory use (e.g. respiratory spacers like InspireEase and AeroChamber), unless urgently required, should be obtained through one of the Funds' participating DME vendors. To locate a participating DME vendor with the Funds, contact the Funds' Call Center at **1-800-291-1425**.
- Legend vitamins (with a prescription) except prenatal vitamins
- Medication Assisted Treatment of Substance Abuse Disorder - the following products are covered at \$0 Copayment: buprenorphine sublingual tablet (2mg, 8mg), buprenorphine-naloxone sublingual tablet (2mg-0.5mg, 8mg-2mg), Naltrexone tablet (50mg)

PREScription QUANTITY LIMITS

All medications contained in this **Funds Supplemental Formulary Prescribing Guide** are subject to coverage based on FDA-approved maximum quantity limits. Prescriptions for quantity limits that exceed the FDA-approved dosing are subject to enhanced medical necessity approval guidelines. Listed below are some of the benefit limits on certain drugs based on either benefit design or FDA maximum dosing criteria.

Erectile Dysfunction Drugs - combined limit of 18 tablets per 3 month supply

- Cialis (tadalafil) [Note: 2.5 mg and 5 mg strengths are allowed for once daily dosing]
- Stendra
- vardenafil
- Viagra (sildenafil)

Miscellaneous

- Albuterol oral inhalers (maximum recommended dosing)
- Condoms - Male and Female Condoms - 12 per month (applies only to Non-Grandfathered plans with Affordable Care Act coverage of condoms)
- Lidocaine 5% Ointment - 100 grams per month
- Oral vancomycin (Vancocin 80 capsules/10 days; Firvanq 450mL/10 days)
- Oxycodone extended-release (Oxycontin) – 120 tablets per month
- Select topical antibiotic and antifungal agents (maximum quantity based on practice guidelines)

SPECIALTY PHARMACY

CVS Specialty® is a full-service specialty pharmaceutical provider and the preferred, sole vendor provider for the Funds. Specialty pharmaceuticals or products are used in the management of specific chronic or genetic conditions and certain catastrophic diseases such as cancer. They are often injectable or infused medications, but may also include oral agents.

CVS Caremark offers these services combined with professional pharmaceutical care management. Products distributed by CVS Caremark and therapies may change. To learn more about how

CVS Specialty® can help you or your patients, please visit the website <https://www.CVSSpecialty.com> or call 1-800-237-2767.
