Important Questions	Answers	Why This Matters:
What is the overall deductible?	\$150 deductible / family* for physician and non-hospital and related services. *Family includes individuals without other family members on the plan.	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the policy, the overall family deductible must be met before the plan begins to pay.
Are there services covered before you meet your deductible?	Yes. Routine vision care and preventive dental and PPL care	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible . See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	Yes. \$50 / individual for dental services \$150 / family for hospital related services* \$300 for unauthorized non-PPL service** There are no other specific deductibles .	You must pay all of the costs for these services up to the specific deductible amount before this plan begins to pay for these services. *Hospital related services are inpatient hospitalizations , Skilled Nursing Facility admissions, and outpatient emergency room services . **Unauthorized non-PPL services are services from a non-PPL provider obtained without required precertification
What is the out-of-pocket limit for this plan?	\$1,000 / family for physician visits and hospital and related services \$1,000 / family for prescription drugs	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , the overall family out-of-pocket limit must be met
What is not included in the out-of-pocket limit?	The extra cost of non-preferred or brand name drugs, balance-billing charges, dental premiums , uncovered health care	Even though you pay these expenses, they don't count toward the out-of-pocket limit . The \$300 deductible for unauthorized non-PPL services also does not count toward this limit.
Will you pay less if you use a participating provider?	Yes. See www.umwafunds.org or call 1-800-291-1425 for the Participating Providers List (PPL) .	This plan uses a Participating Provider List (PPL) network . You will pay less if you use a provider in the plan's network . You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware your network provider might use an out-of- network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist?	No	You can see the specialist you choose without a referral .

 All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.
