Important Questions	Answers	Why This Matters:
What is the overall deductible ?	\$ 0	See the Common Medical Events chart below for your costs for services this plan covers.
Are there services covered before you meet your deductible ?	Not Applicable	This Plan does not have a deductible .
Are there other deductibles for specific services?	Yes. \$50 /individual for dental (except preventive). There are no other specific deductibles .	You must pay all of the costs for these services up to the specific deductible amount before this plan begins to pay for these services.
What is the out-of-pocket limit for this plan ?	\$240 / family* for in-PPL physician visits and \$1,600 / family* in combined non-PPL hospital and physician office visits per year. No out-of-pocket limit for prescription drugs .	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , the overall family out-of-pocket limit must be met. *Family includes individuals without other family members on the plan.
What is not included in the out-of-pocket limit ?	The extra cost of brand name or non-preferred drugs, balance-billing charges, dental premiums , and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Will you pay less if you use a Preferred provider ?	Yes. See www.umwafunds.org or call 1-800-291-1425 for the Participating Provider List (PPL) .	This plan uses a PPL. You will pay less if you use a provider on the PPL. You will pay the most if you use a non-PPL provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware your PPL provider might use a non-PPL provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist ?	No	You can see the specialist you choose without a referral .

All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.
